

Setting the foundation for pre-filled syringe success

Pre-filled syringes have been around for decades but in recent years, they have become an increasingly attractive choice for medical professionals as they are easy to use and help eliminate dosing errors when compared to traditional vials.

At Pfizer CentreOne, we are in a unique position to offer you Pfizer's experience in the development and commercial manufacture of pre-filled syringes.

Our Offering

- Barrier isolator
- Syringe sizes: 1 mL - 5 mL
- Fill volume range: 0.5 mL - 5 mL
- Scale up and optimization
- Commercial supply
- Small molecules and biologics
- Packaging

With the support of our experts, we can help to scale your product up to commercial and to deliver your product to your patients in accordance with Pfizer's high quality standards.
